Audio Software Developer | Music Producer

About Me

Software development leader with 10+ years of experience building real-time, high-performance systems. Passionate recording artist and producer with a deep love for advancing digital audio technology. Skilled in C++, Java, cross-platform development, and creating seamless workflows for music production.

Career Highlights

- Led development of Schwab's modern real-time verification backend, designed for high throughput and security.
- Architected CI/CD pipelines for 10+ mission-critical applications across multiple environments.
- Active recording artist and producer using Pro Tools 2025 (Windows & macOS) with MTRX Studio interface.

Studio Snapshot

Pro Tools 2025 + MTRX Studio, Yamaha HS8 monitors, Audio-Technica P48 mic, Fender Stratocaster, BC Rich Shredzilla, Les Paul Epiphone, Yamaha FG-04-LTD acoustic, Line 6 HX Stomp, API & Rupert Neve preamps, Integra-7 sound module.
